

LED Vest - K-Safe

**SAFETY VEST 12 LED
MADE IN FRANCE**

Ref. :
PR41-GFRO12-L
PR41-GFRO12-XL
PR41-GFRO12-XXL
PR41-GFRO12-XXXL

ACTIVE SAFETY & ADVANCED TECHNOLOGY

Our K-Safe LED vest, with its French technology, is a real personal safety equipment.

Equipped with 12 white LEDs, it has several lighting functions:

- slow flashing light
- fast flashing light
- fixed light
- off

This top-of-the-range vest is made from 100% recycled polyester fabric.

LED lighting combined with reflective stripes ensure visibility and safety in all circumstances.

RECHARGEABLE, COMFORTABLE AND PRACTICAL

Our K-Safe LED vest offers long battery life. The vest can be washed up to 25 times at 40°.

Comfortable for the wearer, this K-Safe Made In France vest is light and pleasant to wear, thanks to its soft, resistant bands and flat, non-blinding white LEDs.

Our vest is designed to significantly improve operators' working comfort and productivity.

ECO RESPONSABILITY

This new K-Safe vest is designed and produced in France. By purchasing this LED safety vest, you are supporting a French company and reducing your carbon footprint.

Furthermore, its packaging is 100% recyclable and biodegradable.
