DUAL POWER HEADLAMP AAA / LITHIUM BATTERY

HEADLAMP WITH MANY ADVANTAGES

The FRP510 K-Light headlamp is equipped with a dual power supply.

It can work with its lithium polymer battery or with 3 AAA batteries.

Thanks to its SENSOR function, it can be turned on/off by a simple double hand gesture in front of the lamp to avoid involuntary activation. You can activate the lamp with gloves and avoid touching the power button with dirty hands.

It offers several lighting modes and brightness, and produces up to 500 lumens. In addition, it offers a battery life of up to 8 hours thanks to its 1000 mAh Li-ion battery. Our FRP510 K-Light is stylish, waterproof (IP54), and very light: only 89g.

The lamp head can be detached from the holder. A magnet is also integrated at the back of the lamp.

Its ergonomic design, its aluminum front housing, and its non-slip headband, offers a perfect and comfortable positioning.
