CASE & BLUETOOTH BATTERY SYSTEM

The K-Light PR10K-C is a powerful and robust lighting device. It produces up to 10 000 lumens, making it a universal projector for demanding professionals.

PR10K-C is *compatible* with METABO/CAS 18V battery system and all other 18V/20V batteries from leading power tool brands using the optional connectors.

The PR42-ALIM-C power supply (optional) can be used directly on the mains for unlimited light availability.

The PR10K-C also has an internal backup battery. With the Bluetooth control app, you can control up to four projectors via a mobile device.

The built-in dimmer allows you to adjust the light output on 5 different levels.

The projector is equipped with a battery life and brightness level display.

Can be mounted on the PR42-TRIPOD tripod Prolutech (optional).

TECHNICAL CHARACTERISTICS

- Source: LED COB high performance
- Power according to 5 levels:
 - 10000 lm @100%
 - 7500 lm @75%
 - 5000 lm @50%
 - 2500 lm @25%
 - 1000 lm @10%
- Lux@0,5m: 1600-16000
- Power consumption : 75W
- Multi-brand battery compatibility: *Compatible* METABO/CAS 18 V battery system and all other 18V/20V batteries using connectors
- CRI: Ra > 80
- T° colour: 6000K
- Main beam angle: 110°
- Battery life: 1.25-12h on 18V 5.2Ah battery
- Backup battery: 1h @1000 lm
- Protection ratings: IK07 / IP65 with battery cover
- Operating temperature: -10° to +40°C
- Impact resistance: 1 meter
- Dimensions: 304 x 292 x 131 mm
- Weight: 3.72 kg
- Warranty: 3 years
