

RL1000-360 - K-Light

Réf : PR42-RL1000-360

25-METER 360° 220V LED STRIP LIGHT ON REEL

230V LED strip with integrated power supply. Direct connection to mains power, no external transformer required.

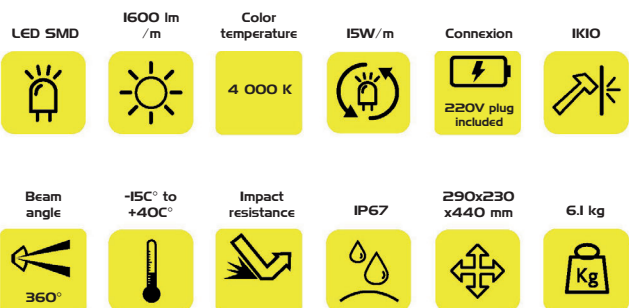

25-METER 360° LED STRIP LIGHT ON REEL

The RL1000-360 K-Light reel LED strip light provides your worksites with 360° lighting. Its double-sided light diffusion evenly illuminates the entire work area.

It offers a lighting power of 1,600 lumens per meter, or 40,000 lumens in total. Designed for construction site conditions, it ensures quick installation, high resistance, and high light output.

TECHNICAL SPECIFICATIONS

- Type: high-voltage construction tape on reel with handle
- Use: indoor and outdoor lighting
- Double-row LED, 360 LEDs per meter
- Tape length: 25 meters
- Luminous flux: 1,600 lumens/m
- Power: 15W/m
- 360° beam angle: both sides of the strip are illuminated
- Color temperature: 4000K
- Average lifespan: 30,000 hours at 25°C
- Voltage: 200-240V AC - 50-60 Hz
- Connection: 1.5m H05RN-F 220/240V AC cable (plug included)
- LED type: SMD2835 0.2W
- Diffuser/reflector type: transparent
- Tape can be cut every meter
- Mounting type: surface, wall, floor
- Driver type: CE
- Safety: IP67/IK10
- Operating temperature: -15°C to +40°C
- Packaging dimensions: 290x230x440 mm
- Certificates: TUV CE/ETL/ERP/Reach
- Weight: 6.1 kg
- Material warranty: 2 years
