

BSS6 - K-Sign

PR42-BSS6-3C

CASE OF 6 LED BEACONS SYNCHRONIZABLE - 3 COLORS

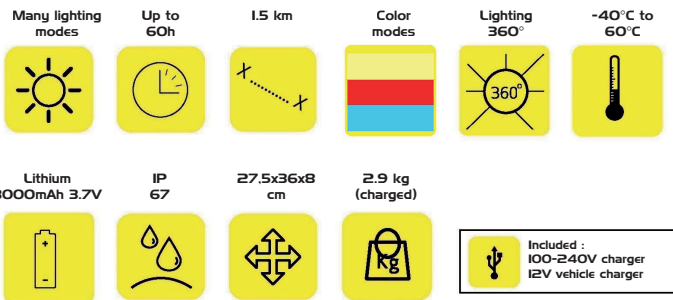

EMERGENCY LIGHTING EQUIPMENT

The K-Sign BSS6 case of rechargeable and synchronizable LED beacons is a rapid deployment signaling device.

Made from robust, waterproof and impact resistant plastic materials, it can carry and recharge 6 beacons. Each beacon lights up automatically as soon as it is removed from the case, and communicates with the others. Thanks to a simple two-button control, you can choose between several lighting modes in 3 colors: yellow, red and blue.

TECHNICAL SPECIFICATIONS

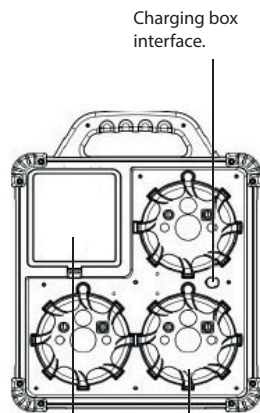

- Lighting modes & operating times :
 - *Pulsed flash (waveform): 12h
 - *Single flash: 60h
 - *Slow flash: 30h
 - *Fast flash: 48h
 - *Double slow flash: 50h
