

Precise surveying and measuring

Nedo mEssfix 2

New design - proven quality

Nedo mEssfix 2

Nedo mEssfix2

Nedo mEssfix2 is the new generation of the tried-and-tested telescopic measuring rod for measuring clear dimensions.

The new **mEssfix2** is characterized by a new, fresh design. The functionality and proven quality have remained unchanged - made in Switzerland.

Simply put on the **mEssfix2** telescopic measuring rod, pull it out and the measurement can be conveniently read off the analog display. The integrated combination vial makes it easy to measure both vertically and horizontally.

The built-in metal tape measure and the oversized rewinding device withstand even extreme stresses and guarantee precise measurement results at all times.

The robust design, reliability and intuitive handling make the **mEssfix2** an indispensable aid for measuring clear dimensions. Perfect for measuring windows, doors and sun blinds.

All **mEssfix2** units conform to accuracy class II $\Delta l = 0,3 + 0,2 \cdot L(m)$

Features:

- Rugged telescopic measuring stick
- Housing made of impact-resistant plastic
- Bubble for horizontal and vertical alignment
- Sections made of sturdy, rectangular-profile aluminium
- Made in Switzerland
